EXPERIENCE

waving solutions 0,1,2,3 + conditioner fixing lotion

Experience is the classic permanent shape system. Enriched with CERAMIDE, Experience actually treats hair by strengthening it. Thanks to the properties of such a molecule, capable of holding on to the cuticle, it smoothes and protects hair for long.

Density: 1
Color: WHITE
Fragrance: TYPICAL

B- Conditioner fixing lotion

Ph: 2 / 3,5
Density: 0,97 - 0,98
Color: WHITE
Fragrance: TYPICAL

Instructions for use:

Shampoo and rinse delicately. Avoid irritating the skin. Towel-dry excess water. Protect the skin around the hairline with a cream / oil barrier and a damp cotton band. Part hair into sections and go ahead with rolling up by applying a mild tension. Start from the head top and apply the curling fluid on the upper, lower and central part; wet each roller without soaking. Count down treatment time. When finished with the application, renew the wet cotton.

Treatment time: 8-20 minutes without heating aids. After five minutes carry out a first check on the lock. In case of an unsatisfactory result, repeat the check on the lock every three minutes.

Caution The curling product contains derivatives of thioglycolic acid. Avoid contact with eyes. In case of accidental contact with eyes, rinse with water immediately and see a doctor. Avoid contact with ears and skin too. Always wear suitable gloves. Keep out of reach of children. Read safety directions carefully before using.

Active elements:

Ceramide is a liposome with well-known moisturizing and restructuring properties; it seeps into the hair and tones it up from inside.

Usage tips:

- Do not use on the same day of a chemical treatment
